AMOS DOBYO

MANIFESTO OF THE SRC PRESIDENTIAL CANDIDATE 2022-2023

Profile

I am Amos Dobyó, Born in Nigeria and a 3:2 Student pursuing Bachelor of Divinity in the CSSTHE. I am an efficient and energetic individual with many accomplishments as a leader. I am a motivated manager with organizational skills. Proactive and organized with a strong commitment to excellent care of difference.

Motivation

My motivation is an emanation of a strong feeling added to experience which characterizes the concern for the fast development and speedy response to the need and well-being of the student body.

To foster more Unity: This is a key to the success of every society or community. With unity we can achieve *Ubuntu* "I am because you are". *Ubuntu* can only be achieved among people who are united and agree to share common values and even in the face of diversity and differences in opinion and culture, stick together in achieving their goals. Africa University with its diverse cultures gathered from more than 26 African countries requires a reminder on the basis of tolerance and education on how to manage and live with people in a diverse community.

To Ensure Speedy Response to Students need and services: The reality in administration are usually faced when one gets into it. Most things are learnt almost by the end of term of office leaving no room for amendment. With my experience, I can help my fellow leaders into knowing when and how best to tackle issues even before challenges arise. The same experience will help in advising through the process of budgeting that will gear towards the benefit of the students.

Ensure Observance of our core values [Academic Excellence, God Fearing, Integrity, Professionalism, Diversity, and Ubuntu]: Knowledge without character is more of the absence of the former. I, therefore, will make sure that our students are protected and provided with services that promote the acquisition of these values and also make sure students do their own part by observing them.

Objectives

To Ensure Team Work and Fulfill constitutional duties: Taking student matters to necessary offices for address; response to all calls and matters of the students; presiding over meetings on all matters and concerns of the student body; and making sure that all student representatives work as required and in the best interest of the students.

Promote Innovation, Research and Art: This can be achieved by connecting students with the right people that can help them into realizing their dreams and building a better future for themselves and promoting the university.

Decentralization of role: this is geared towards two key areas: - to Promote acquisition of leadership skills and to engage communities, clubs and varieties of student into solving student matters. When community leaders, head of clubs and other heads are drawn closer to discuss matters and proffer solutions to students problems, we are not only discussing but also learning to become better leaders among ourselves. Similarly, Leadership training, seminar and workshops can be organized through clubs for the benefit of all students. When this is done, the purposes of gaining skills, engagement, unity and shared governance are achieved.

Promote Entrepreneurship: The world is growing so fast and entrepreneurship has taken over serving the main sources of income. As a body of students with potential marketers and people building career in businesses, it is paramount that we engage entrepreneurship experts to expose our students to marketing

Equal Representation: this is to do away with the feelings of unequal treatments among students. For a university that aspires to become a world class university for leadership development in Africa and also having a mission to provide quality education within a *Pan-African context* through which persons can acquire general and professional knowledge and skills, grow in spiritual maturity, develop sound moral values, ethics and leadership qualities; the existence of such feeling of unequal treatment must be dealt with. We must, in our diversity, be united to build the Africa of our dreams.

Transparency: Transparency is very essential and it means the following: *Openness* – this allows an open-door policy for easy access to information and finding solutions.

Communication – to keep students up-to-date on the affairs of the school and the SRC

Accountability: Letting students know or see the use of their resources is an important aspect of every leadership.

“LESS TALKING MORE DOINGS”

Your Welfare is our concern
